EXPERIENCE

Python Developer Intern | Infosys Springboard. Feb 2025 – April 2025

- Developed an AI-powered restaurant management system using Flask, improving order processing efficiency by 95%.
- Integrated real-time order tracking and a secure payment gateway, enhancing customer experience and reducing payment failures by 90%.
- Implemented role-based access control (RBAC) for customers, restaurant owners, and administrators, ensuring secure and scalable user management.
- Optimized backend APIs, reducing response time by 90%, and improved database queries for faster order retrieval. Followed Agile methodologies such as sprint planning, daily stand-ups, and retrospectives to ensure timely delivery of high-quality solutions.

ACADEMIC PROJECTS

E-Shopping Cart Website | Python, Django, SQLite Dec-2023 – Feb 2024

- Designed and developed a high-performance e-commerce platform, enabling seamless product browsing, cart management, and secure checkout.
- Leveraged Django ORM for optimized database queries, reducing page load time by 80%.
- Enhanced security by implementing JWT authentication, ensuring safe transactions and user data protection.

Web Scraping on GitHub | Python, BeautifulSoup, Requests Jul 2024 – Jul 2024

- Built a data extraction tool to scrape top GitHub repositories along with their star counts and contributors.
- Implemented automated data pipeline to fetch and structure insights, reducing manual effort by 80%.
- Optimized scraping scripts to handle large-scale data requests efficiently, minimizing API rate-limit issues.

Role-Based Access Control (RBAC) | Python, Django, Django REST Framework, SQLite Oct 2024 – Oct 2024

- Developed a scalable RBAC system allowing granular permissions for different user roles, improving security and access control by 80%.
- Implemented JWT authentication and OAuth2, ensuring secure API endpoints.
- Designed a role hierarchy model, allowing easy scalability for enterprise-level applications.

PDF file handling tool | Python, PyPDF2 Jan 2025 – Feb 2025

- Engineered an automated PDF processing tool to merge, split, encrypt, and decrypt PDF documents, reducing manual efforts by 90%.
- Integrated password protection and encryption, enhancing document security and preventing unauthorized access.
- Designed a user-friendly CLI interface, making document handling more accessible for non-technical users.

SKILLS SUMMARY

- Programming Languages:** Python, Java, HTML/CSS
- Technologies/Frameworks:** Django, Flask, FastAPI, RESTful API, MySQL, MongoDB, SQLite, Web Scraping, Bootstrap
- Developer Tools:** GitHub, Linux, Visual Studio Code, Postman, Google Colab
- Soft Skills:** Problem-Solving, Team Collaboration, Adaptability, Work Ethic, Creativity

ACADEMICS

- Noida Institute of Engineering and Technology.** *Master of Computer Applications* | Greater Noida, UP 2022 – 2024
- Vinoba Bhawe University,** *Bachelor of Computer Applications* | Hazaribagh, JH 2019 – 2022

ACHIEVEMENTS AND CERTIFICATIONS

- Python (4 Star)** | HackerRank
- Foundations: Data, Data, Everywhere** | Coursera, Authorized by Google
